

Tooling Certificates - For Participating OEM Partners, and Customers.

Tooling Certificates are available with any new machine purchased. By purchasing a certificate up front as part of your investment, you will be able to free up your tooling budget and equip your new machines.

The screenshot shows a tooling certificate for ABC Company. It includes the PILOT Precision Products logo, the title 'ABC Company - Tooling Certificate', and a quote reference number. The certificate details a 'Tooling Certificate Credit' for \$2500.00, with a one-time subtotal and total of \$2500.00. It also includes contact information for Marco Morgado and a 'Download quote' button.

Purchasing a Pilot Precision Products Tooling Certificate

- Purchase the certificate when you purchase your machine through your local dealer or direct from Pilot Precision Products.
- There is no limit on the amount of the certificate. Additionally, the amount of the certificate can be split into (2) releases. You will then be able to redeem tooling at the Pilot Precision Products list price.
- The Pilot Precision Products Tooling Certificate can be used to purchase standard tools from our catalog and special order tools designed to your part.
- Technical sales will work with you to provide the best tooling for your machine and applications.
- Expires after 12 months of issuance.
- Valid for all Pilot Precision brands including **Palbit**.

* *Restrictions: There are no returns or refunds with the certificate.*
